ABDULAZIZ ELYAKUB

Computer Science Graduate | Data Science | AI Evaluation | Information Security

Kano, Nigeria

Email: abdulazeezelyakub@gmail.com | Phone:+2348064292536

LinkedIn: [www.linkedin.com/in/abdulaziz-elyakub]

PROFESSIONAL SUMMARY

Computer Science graduate specializing in Data Science, with foundational knowledge of Python programming, data analysis, artificial intelligence concepts, and information security. Experienced in academic and practical projects involving dataset exploration, data cleaning, visualization, and pattern identification. Knowledgeable in cybersecurity fundamentals, threat analysis, and information security management concepts, including ISO 27001. Possesses strong analytical thinking, problem-solving, attention to detail, and communication skills. Eager to contribute to technology-driven teams through data analysis, AI evaluation, research, and information security support.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science — Data Science Specialization

Vignan University, India | 2023–2026

Relevant Coursework: Data Science, Python Programming, Machine Learning Fundamentals, Statistics, Database Systems, Computer Networks, and Cybersecurity.

National Diploma (ND) in Computer Science

Kano State Polytechnic, Kano, Nigeria | 2019–2021

TECHNICAL SKILLS

Programming and Development: Python, JavaScript, HTML, CSS

Data Analysis: Pandas, NumPy, Microsoft Excel, Google Sheets, Data Cleaning, Dataset Analysis

Data Visualization: Tableau, Power BI, Charts and Dashboards

AI and Machine Learning: AI/LLM Concepts, Machine Learning Fundamentals, Data Annotation Concepts, Model Evaluation Concepts

Cybersecurity and Information Security: Cybersecurity Fundamentals, Threat Analysis, Security Monitoring Fundamentals, Networking Basics, ISO 27001 and Information Security Management Systems Concepts

Tools: Git, GitHub, Jupyter Notebook, Visual Studio Code

PROJECTS

Sales Performance Data Analysis Dashboard

- Cleaned and analyzed structured sales data to identify trends and performance patterns.
- Developed Tableau visualizations and dashboards to present analytical findings.
- Examined key performance indicators to support data-driven decision-making.

Data Science and Machine Learning Project

- Used Python and data analysis libraries to explore, clean, and interpret datasets.
- Applied foundational statistical and machine learning concepts to identify patterns.
- Documented findings and communicated results in a clear, structured format.

Security Log Analysis Project

- Examined system log data to identify unusual patterns and potential security concerns.
- Applied basic analytical techniques to understand system activity and support threat identification.

CERTIFICATIONS AND PROFESSIONAL DEVELOPMENT

- Alison — ISO 27001:2022/Amd 1:2024 Update: Information Security Management Systems (Completed)
- Cisco — Introduction to Cybersecurity (Completed)
- Cisco — Threat Analysis (Completed)

CORE COMPETENCIES

Analytical Thinking | Problem-Solving | Critical Reasoning | Attention to Detail | Research | Data Interpretation | Technical Documentation | Communication | Teamwork | Continuous Learning

CAREER INTERESTS

Data Analysis | AI Evaluation | AI Training | Data Annotation | Junior Data Science | Research Support | Information Security | Cybersecurity Analysis
